

# DualBoard™

DualBoard featuring WorkSpace software

## DYNAMIC AND COLLABORATIVE

Transform a crowded classroom into an interactive learning environment with DualBoard, a multi-user interactive whiteboard. Bring course work to life in front of students, while encouraging student interaction with engaging lessons.

## ALLOW MULTIPLE STUDENTS TO INTERACT AND COLLABORATE

DualBoard allows two students or groups to work simultaneously at the board, to manipulate and annotate over content with a Turning Technologies pen, for greater collaboration with digital material. High-resolution technology provides instructors with industry-leading accuracy in writing, diagramming and content delivery.

## ENGAGE STUDENTS WITH A HIGHER LEVEL OF INTERACTIVITY

Superior performance and handwriting recognition.

Multiple users work simultaneously to annotate and manipulate content.

When used with Mobi™ student devices, up to nine students or groups can display their work at the same time, from anywhere in the classroom.

## POWERED BY WORKSPACE

Use WorkSpace to create, assemble and present interactive lesson content. With WorkSpace's open design, instructors incorporate and work with teaching materials in multiple formats from many sources, including web resources and publisher content. WorkSpace includes teaching assets such as rich images, animation and interactive lessons. Instructors facilitate lectures with more than 50 simple-to-use annotation and teaching tools. Ministries of Education often require interactive whiteboards to provide an intuitive import and export function, to bring content from one platform to another. WorkSpace supports this requirement and includes recognition tools that convert handwritten text, numbers, shapes and equations to printed content.

## ADJUSTIT PRO™

The AdjustIt Pro Stand (sold separately) is easy to install and provides DualBoard mobility from room to room and within the room. Enables instructors to adjust the board to any height. The AdjustIt Pro Stand includes a universal video projector adapter and is compatible with a wide range of short throw and ultra-short throw projectors.

## MODEL

## DualBoard™

Model Numbers	1279, 1289, 1297
Size	1279: 68.3 in x 52.75 in 1289: 80.50 in x 52.75 in 1297: 89.50 in x 52.75 in
Active Area	1279: 79 in 1289: 89 in 1297: 97 in
Aspect Ratio	1279: 4:3 1289: 16:10 1297: 16:9
Resolution	Internal resolution at 4,096 points (lines) per inch Output resolution at 1,000 lines per inch 1279: 46,500 x 62,000 1289: 42,000 x 74,000 1297: 46,500 x 83,000
Weight	1279: 50,045 lb 1289: 57.32 lb 1297: 61.6 lb
Shipping Size	1279: 57.5 in x 79.75 in x 3.8 in 1289: 57.5 in x 91.75 in x 3.8 in 1297: 57.8 in x 94.5 in x 6.0 in
Shipping Weight	1279: 81.8 lb 1289: 87.1 lb 1297: 117 lb
Software	WorkSpace
Warranty	3 years with available extension to 5 years
Power	A power supply with a 10 ft cord is included, optional RF connection. The power supply output is rated at 9V at 1A.
Computer Connection	USB or optional wireless RF
Technology	Uses patented, electromagnetic digitizing technology, which delivers a high resolution
Compatibility	Windows® 7 and Windows® Vista; Mac OS X® Snow Leopard; Linux
Number of uses	Two users work simultaneously at the board (up to nine users work simultaneously if multiple Mobi™ Learners are used in conjunction with DualBoard)
What's in the Box?	Rechargeable AAAA pen, pen charger, wall mount, WorkSpace software, USB cable, Universal Power Supply
