

euroscreen®

Connect Floor

The portable Connect Floor is one of our best-selling products, and is a favourite with many customers. Compared to other portable screens the Connect Floor is sturdier, often more practical, and contains fewer parts than a tripod screen.

The steel case rests steadily on the floor supported by a “foot” and provides an available viewing area from the case to the top of the raised viewing surface. The model is very easy to set up, and the light weight and the integrated handle makes it easy to carry along. Connect Floor is also perfect for displaying custom printed messages to a large audience.

CONNECT FLOOR
